HSP Credits – 4.0

This North American recognized training program focuses on the prevention and control of occupational injury and illness, property damage, security breaches, pollution and product liability. We feel it is important that management and all employees understand and accept their role in making theirs a safe and health workplace. The material for this program consists of a text and 20 chapter exercises. It is essential that management understands and accepts its role in making the workplace safe and healthy, as well as preventing and controlling all associated losses.
